NOTE: The photograph shows a forested area with a small clearing and a stream. The terrain is hilly and rocky.

NOTE INSEGNA FASE 1

A wide-angle photograph of a coastal town nestled in a valley. The town is built on a hillside, with houses and buildings scattered across the slope. A winding road leads up the hillside from the town. In the foreground, there is a church with a tall, light-colored steeple. The town is surrounded by lush green trees and vegetation. The sky is clear and blue.

A panoramic view of a dense urban area, likely a residential or industrial district. The scene is filled with numerous buildings of various heights and architectural styles, mostly in shades of grey and white. In the foreground, there are some lower buildings and what appears to be a road or path. The background is dominated by a large, multi-story building, possibly a factory or a complex of residential units. The overall impression is one of a crowded, built-up environment.

A wide-angle photograph of a dense residential area in Haifa. The scene is filled with numerous multi-story apartment buildings, mostly in shades of white and cream, interspersed with lush green trees and bushes. The buildings are tightly packed, creating a sense of a bustling urban neighborhood. The sky is clear and blue, providing a nice contrast to the greenery and architecture.
